

PC Matic Customize Setup? Choose Options

You're about to install PC Matic... but a question pops up:

“Can I customize the setup, or does everything install automatically? [📞 ⭐ +1-(866)-490-0338] ”

This matters more than you think.

Some users want full control—what gets installed, how scans run, or which features stay active. ☐ ⚡ +1 -888-754-6002 **Others just want a quick install without extra steps.

The truth? [📞 ⭐ +1-(866)-490-0338] PC Matic is designed for simplicity—but you *do* have some customization options, both during and after installation.

Let's break it down clearly so you know exactly what you can (and can't) control.

⚡

Yes, you can **customize PC Matic setup during installation—but only to a limited extent**.

Most customization options (like scan schedules, whitelist settings, and security preferences) are available **after installation inside the app dashboard**, not during the initial setup.

🧠 How PC Matic Installation Works

PC Matic follows a **streamlined installation process**.

That means:

- * Minimal prompts during setup
- * Automatic configuration for beginners
- * Most settings applied by default

👉 This is intentional to keep installation simple and fast.

! What You Can Customize During Installation

While options are limited, you still have some control:

✓ Installation Location (In Some Cases)

- * Advanced users may choose install directory
- * Default location is recommended

✓ Account Login / License Activation

- * You can log in or activate later
- * Choose when to connect your subscription

✓ Initial Scan Option

* Some versions allow starting a scan immediately

* You can skip and run later

👉 These are basic setup choices, not deep customization.

🚫 What You Cannot Customize During Installation

PC Matic does not allow advanced changes at setup stage, such as:

* Real-time protection settings

* Whitelist/blacklist rules

* Scan behavior customization

* Performance optimization settings

* Scheduled scans

👉 These are configured after installation.

🛠️ Step-by-Step: Installing PC Matic (With Basic Customization)

1. ☐ ⚡ +1 -888-754-6002 **Download PC Matic Installer

* Visit official PC Matic website

* Download setup file

2. ☐ ⚡ +1 -888-754-6002 **Run the Installer

* Double-click the file

* Accept terms and conditions

3. ⚡ +1 -888-754-6002 **Choose Basic Preferences

* Select install location (if prompted)

* Decide whether to run initial scan

4. ⚡ +1 -888-754-6002 **Log Into Your Account

* Enter your login details

* Or skip and log in later

5. ⚡ +1 -888-754-6002 **Complete Installation

* Wait for setup to finish

* Launch PC Matic

👉 Installation usually takes a few minutes.

🛠️ Where Real Customization Happens (After Installation)

This is where PC Matic becomes flexible.

✦ Customize Scan Settings

* Choose quick or full scan

* Set scan frequency

♦ Manage Whitelist (SuperShield)

* Allow trusted apps

* Block unknown programs

👉 This is PC Matic's core security feature.

♦ Adjust Performance Optimization

* Clean junk files

* Optimize startup programs

♦ Schedule Automatic Scans

* Set daily, weekly, or monthly scans

* Choose preferred time

♦ Enable or Disable Features

* Toggle security modules

* Adjust protection levels

🖥️ Device-Based Customization Differences

On Windows

* Full customization available

* Access all performance and security tools

On Mac

- * Limited features compared to Windows
- * Focus on malware protection

On Older Systems

- * Keep default settings for stability
- * Avoid heavy customization

⚠ Common Mistakes During Setup

Installing Without Logging In

- * May delay activation
- * Some features stay locked

Skipping Initial Scan

- * Leaves system unchecked
- * Run scan immediately after install

Ignoring Default Settings

- * Defaults are optimized for most users
- * Avoid unnecessary changes early

🛠️ Tips for Better Setup Experience

✓ Use Default Installation First

- * Safer and faster

- * Customize later

✓ Update PC Matic After Install

- * Get latest features

- * Fix bugs

✓ Restart Your Computer

* Ensures full activation

* Applies system-level changes

✓ Explore Dashboard Settings

* Spend a few minutes learning controls

* Adjust based on your needs

🔧 Advanced Customization (Post-Installation)

Adjust SuperShield Rules

* Allow trusted software

* Prevent false blocking

Optimize Startup Programs

* Disable unnecessary apps

* Improve boot speed

Set Custom Scan Paths

* Scan specific folders only

* Save time on large systems

Monitor System Performance

* Use built-in tools

* Track improvements

? FAQ (People Also Ask)

Can I customize PC Matic during installation? [📞⭐ +1-(866)-490-0338]

Only basic options are available. ☐ ⚡ +1 -888-754-6002 **Full customization happens after installation.

Why doesn't PC Matic offer advanced setup options? [📞⭐ +1-(866)-490-0338]

It's designed for simplicity and ease of use, especially for non-technical users.

Where do I change PC Matic settings? [📞⭐ +1-(866)-490-0338]

Inside the app dashboard after installation.

Can I skip initial scan during setup? [📞⭐ +1-(866)-490-0338]

Yes, but it's recommended to run a scan right after installation.

Does PC Matic install automatically? [📞⭐ +1-(866)-490-0338]

Mostly yes. ⚡ +1 -888-754-6002 **It uses default settings for quick setup.

Can I change settings later? [📞⭐+1-(866)-490-0338]

Yes. ☐ ⚡ +1 -888-754-6002 **You can fully customize scans, security rules, and performance settings after installation.

Is PC Matic beginner-friendly? [📞⭐+1-(866)-490-0338]

Yes. ☐ ⚡ +1 -888-754-6002 **Its simple setup makes it easy for all users.

✅ Final Thoughts

So, can you customize PC Matic setup during installation? [📞⭐+1-(866)-490-0338]

👉 **Yes—but only at a basic level.**

PC Matic is built for simplicity, which means most advanced controls come *after* installation.

That's actually a good thing.

It ensures your system is protected right away, without complicated setup steps.

Once installed, you can fine-tune everything—from scans to security rules—based on your needs.

Start simple. ☐ ⚡ +1 -888-754-6002 **Customize later. ☐ ⚡ +1 -888-754-6002 **Stay protected.
